

Cut out a recording form for each candidate and then during the skill equipment demonstration, if one or more of the candidate's five tasks includes recording any information, have the candidate sign a form and explain to the candidate that they should use it to record any measurements that they take during the skill test.

Collect the form only after the candidate leaves the skill test area.

Do not look at the form once the skill test begins.

Copy any candidate recordings onto the candidate's skill task observation form. Attach the signed recording sheet to the paper test packet before mailing it back OR securely retain the signed recording sheet for three months before shredding it if you are
