Introduction

In 1987, the Nursing Home Reform Act was adopted by Congress as part of the Omnibus Budget Reconciliation Act (OBRA '87). It was designed to improve the quality of care in long-term health care facilities and to define training and evaluation standards for nurse aides who work in such facilities. Each state is responsible for following the requirements of this federal law.

As defined in the OBRA regulations, a nurse aide competency evaluation program provides specific standards for nurse aide related knowledge and skills. The purpose of a nurse aide competency evaluation program is to ensure that Candidates who are seeking to be nurse aides can competently and safely perform the job of an entry-level nurse aide.

This handbook describes the process of taking the nurse aide competency test and is designed to help prepare Candidates for testing. There are two parts to the nurse aide competency test—a multiple-choice Written/Oral Test and a Skill Test. Candidates must pass both parts of the test to be listed on the Tennessee Nurse Aide Registry.

The Tennessee Department of Health has approved D&S Diversified Technologies to provide test scheduling, tests and scoring services for Tennessee Nurse Aide Testing. Any questions you have after reading this handbook can be answered by checking the Tennessee page on our web site (www.hdmaster.com) or calling D&SDT toll free at 877-201-0758. This handbook should be kept for future reference. General information regarding the Tennessee Nurse Aide program may also be found at https://apps.health.tn.gov/nurseaide/natf_criteria.aspx. Once on the State home page, choose Health Professionals/Licensing Boards and from there click on Nurse Aides. Also to determine the status of your Tennessee nurse aide certification, you may either log onto <https://apps.health.tn.gov/Licensure//health> and click on License Verification, or you may visit the Tennessee Abuse/Nurse Aide Registry at <https://apps.health.tn.gov/AbuseRegistry/default.aspx> or call them at 1-800-778-4504.
