California Mock Skills

Effective for testing: January 2022

D&S Diversified Technologies (D&SDT), LLP – Headmaster, LLP

APPLY A KNEE-HIGH ANTI-EMBOLIC (ELASTIC) STOCKING TO ONE LEG

ЛГ	PLY A KINEE-HIGH ANTI-LIVIDULIC (ELASTIC) STUCKING TO OK	
	Perform hand hygiene.	
	a. Cover all surfaces of hands with hand sanitizer.	
	b. Rub hands together until hands are completely dry.	
	Explain the procedure to the resident.	
	Raise bed height.	
	Provide for resident's privacy.	
	Provide for resident's privacy by only exposing one leg.	
	Roll, gather or turn stocking down inside out to at least the heel.	
	Place foot of stocking over the resident's toes, foot, and heel.	
	Roll -or- pull top of stocking over resident's foot, heel and up the leg.	
	Check toes for possible pressure from stocking.	
	Adjust stocking as needed.	
	Leave resident with stocking that is smooth/wrinkle free.	
	Lower bed, if it was raised.	
	Place call light or signal calling device within easy reach of the resident.	
	Maintain respectful, courteous interpersonal interactions at all times.	
	Perform hand hygiene.	
	a. Cover all surfaces of hands with hand sanitizer.	
	b. Rub hands together until hands are completely dry.	

Assist Resident to Ambulate using a Gait Belt

AJ.	DIST RESIDENT TO AIVIDULATE USING A GAIT DELT	
	Perform hand hygiene.	
	a. Cover all surfaces of hands with hand sanitizer.	
	b. Rub hands together until hands are completely dry.	
	Explain the procedure to the resident.	
	Obtain a gait belt for the resident.	
	Assist resident to put on non-skid shoes/footwear.	
	Adjust the bed height to ensure that the resident's feet are flat on the	
	floor when the resident is sitting on the edge of the bed.	
	Lock bed brakes to ensure resident's safety.	
	Lock wheelchair brakes to ensure resident's safety.	
	Bring resident to a sitting position.	
	Place gait belt around resident's waist to stabilize trunk.	
	Tighten gait belt.	
	Check gait belt for tightness by slipping fingers between gait belt and	
	resident.	
	Face the resident.	
	Grasp gait belt on both sides with an upward grasp.	
	Bring resident to standing position.	
	Stabilize the resident.	
	Ambulate resident at least 10 steps to the wheelchair.	
	Assist resident to pivot/turn and sit resident in the wheelchair in a	
	controlled manner that ensures safety.	
	Use proper body mechanics at all times.	
	Remove gait belt.	
	Place call light or signaling device within easy reach of the resident.	
	Maintain respectful, courteous interpersonal interactions at all times.	
	Perform hand hygiene.	
	a. Cover all surfaces of hands with hand sanitizer.	
	b. Rub hands together until hands are completely dry.	

Assist Resident with the use of a Bedpan, Measure and Record Urinary Output with Hand Washing

(ONE OF THE POSSIBLE MANDATORY FIRST TASKS)

(UNL	OF THE POSSIBLE MANDATORY FIRST TASKS	
	Perform hand hygiene.	
	a. Cover all surfaces of hands with hand sanitizer.	
	b. Rub hands together until hands are completely dry.	
	Explain the procedure to the resident.	
	Provide for resident's privacy.	
	Put on gloves.	
	Position resident on bedpan safely and correctly. (Pan not upside	
	down, is centered, etc.)	
	Raise head of bed to comfortable level.	
	Leave tissue within reach of resident.	
	Leave call light or signaling device within reach of resident.	
	Step behind privacy curtain to provide privacy for resident.	
	When the RN Test Observer indicates, candidate returns.	
	Lower the head of the bed, if it was raised.	
	Gently remove the bedpan.	
	Hold the bedpan for the RN Test Observer while an unknown	
	quantity of liquid is poured into bedpan.	
	Place graduate on level flat surface.	
	Pour bedpan contents into graduate.	
	With graduate at eye level, measure output.	
	Empty equipment used into designated toilet/commode.	
	Rinse equipment used and empty rinse water into designated	
	toilet/commode.	
	Return equipment to storage.	
	Wash/assist resident to wash and dry hands with soap and water.	
	Place soiled linen in designated laundry hamper.	
	Remove gloves turning inside out as they are removed and dispose in	
	trash container.	
	Record output in ml's on the previously signed recording form.	
	Candidate's recorded measurement is within 25ml's of RN Test	
	Observer's reading.	
	Place call light or signaling device within easy reach of the resident.	
	Maintain respectful, courteous interpersonal interactions at all times.	
	Turn on water.	
	Wet hands and wrists thoroughly.	
	Apply soap to hands.	

Rub hands together using friction with soap.	
Scrub/wash hands together for at least twenty (20) seconds with	
soap.	
Scrub/wash with interlace fingers pointing downward with soap.	
Wash all surfaces of hands with soap.	
Wash wrists with soap.	
Clean fingernails by rubbing fingertips against palms of the opposite	
hand.	
Rinse fingers, hands and wrists thoroughly under running water with	
fingers pointed downward.	
Starting at the fingertips, dry fingers, hands and wrists on clean paper	
towel(s).	
Discard paper towels to trash container as used.	
Turn off faucet with a clean, dry paper towel and discard paper towel	
to trash container as used.	
Do not re-contaminate hands at any time during the hand	
washing procedure. (Such as touching the sides of the sink	
during the procedure or crumpling up the paper towel used to	
turn off the faucet with both hands before discarding, etc.)	

CATHETER CARE FOR A FEMALE WITH HAND WASHING

Perform hand hygiene.	
 Cover all surfaces of hands with hand sanitizer. 	
b. Rub hands together until hands are completely dry.	
Explain the procedure to the resident.	
Provide for resident's privacy.	
Fill basin with comfortably warm water.	
Put on gloves.	
Expose area surrounding catheter, only exposing resident be	etween
hip and knee.	
Hold catheter where it exits the urethra with one hand.	
While holding catheter, clean at least 3-4 inches down the d	rainage
tube.	-
Clean with strokes only away from the urethra.	
Use a clean portion of the washcloth for each stroke.	
While holding catheter, rinse at least 3-4 inches down the dr	rainage
tube.	
Rinse using strokes only away from the urethra.	
Rinse using a clean portion of the washcloth for each stroke.	
Pat dry.	
Do not allow the tube to be tugged/pulled at any time duri	ing the
procedure.	
Replace top cover over resident.	
Place soiled linen in designated laundry hamper.	
Empty equipment.	
Rinse equipment.	
Dry equipment.	
Return equipment to storage.	
Remove gloves turning inside out as they are removed and o	dispose in
trash container.	
Place call light or signaling device within easy reach of the re	esident.
Maintain respectful, courteous interpersonal interactions at	
Turn on water.	
Wet hands and wrists thoroughly.	
Apply soap to hands.	
Rub hands together using friction with soap.	
Scrub/wash hands together for at least twenty (20) second	s with
soap.	
Scrub/wash with interlace fingers pointing downward with s	oap.

Wash all surfaces of hands with soap.	
Wash wrists with soap.	
Clean fingernails by rubbing fingertips against palms of the opposite hand.	
Rinse fingers, hands and wrists thoroughly under running water with fingers pointed downward.	
Starting at the fingertips, dry fingers, hands and wrists on clean paper towel(s).	
Discard paper towels to trash container as used.	
Turn off faucet with a clean, dry paper towel and discard paper towel to trash container as used.	
Do not re-contaminate hands at any time during the hand washing procedure. (Such as touching the sides of the sink during the procedure or crumpling up the paper towel used to turn off the faucet with both hands before discarding, etc.)	

DENTURE CARE – CLEANING UPPER OR LOWER DENTURE

Perform hand hygiene. a. Cover all surfaces of hands with hand sanitizer. b. Rub hands together until hands are completely dry. Explain the procedure to the resident. Line the bottom of the sink with a protective lining that would help prevent damage to the dentures. (Towel, washcloth or paper towels.) Put on gloves. Apply denture cleanser (paste) to denture brush (or toothbrush). Remove denture from cup. Handle denture cool running water. Thoroughly brush denture outer surfaces of upper or lower denture. Thoroughly brush denture under cool running water. Rinse denture cup and lid. Place denture in rinsed cup. Add cool clean water to denture cool running water. Rinse denture cup and lid. Place denture in rinsed cup. Add cool clean water to denture cup and replace lid on denture cup. Rinse denture cup and lid. Place denture in rinsed cup. Add cool clean water to storage. Discard sink protective lining in an appropriate container, if used. Remove gloves turning inside out as they are removed and dispose in trash container. b. Rub hands together until hands are completely dry. Place call light or signaling device within easy reach of the resident. Maintain respectful, courteous interpersonal interactio	TURE CARE - CLEANING OPPER OR LOWER DENTURE

	Maintain respectful, courteous interpersonal interactions at all times.	

DONNING PPE (GOWN AND GLOVES), EMPTYING A URINARY DRAINAGE BAG, MEASURE AND RECORD URINE OUTPUT AND REMOVE PPE WITH HAND WASHING

(ONE OF THE POSSIBLE MANDATORY FIRST TASKS)

Perform hand hygiene.	
a. Cover all surfaces of hands with hand sanitizer.	
b. Rub hands together until hands are completely dry.	
 Unfold the gown.	
 Face the back opening of the gown.	
Place arms through each sleeve.	
Secure the neck opening.	
 Secure gown at the waist, making sure that the back flaps cover	
clothing as completely as possible.	
 Put on gloves.	
 Cuffs of gloves overlap cuffs of gown.	
 Explain the procedure to the resident.	
Provide for resident's privacy.	
Place a barrier on the floor under the drainage bag.	
Place the graduate on the previously placed barrier.	
Open the drain to allow the urine to flow into the graduate until bag	
is completely empty.	
Avoid touching the graduate with the tip of the tubing.	
Close the drain.	
Wipe the drain with an alcohol wipe AFTER emptying drainage bag.	
Place graduate on a level flat surface.	
With graduate at eye level, measure output.	
Empty graduate into designated toilet/commode.	
Rinse equipment emptying rinse water into designated	
 toilet/commode.	
 Return equipment to storage.	
 Record the output in ml's on previously signed recording form.	
Candidate's recorded measurement is within 25ml's of the RN Test	
 Observer's measurement.	
 Place call light or signaling device within easy reach of resident.	
Maintain respectful, courteous interpersonal interactions at all times.	
Remove gloves BEFORE removing gown with one glove hand	
grasping the other glove at the palm to remove.	
Slip fingers from ungloved hand underneath cuff of remaining glove	
at the wrist and remove glove turning inside out as it is removed.	

Dispose of gloves in the trash container without contaminating self.	
Unfasten gown at the waist.	
Unfasten gown at the neck.	
Remove gown without touching outside of the gown.	
While removing gown, hold gown away from body without touching	
the floor.	
While removing gown, turns gown inward and keeps it inside out.	
Disposes of gown in designated container without contaminating self.	
Turn on water.	
Wet hands and wrists thoroughly.	
Apply soap to hands.	
Rub hands together using friction with soap.	
Scrub/wash hands together for at least twenty (20) seconds with	
soap.	
Scrub/wash with interlace fingers pointing downward with soap.	
Wash all surfaces of hands with soap.	
Wash wrists with soap.	
Clean fingernails by rubbing fingertips against palms of the opposite hand.	
Rinse fingers, hands and wrists thoroughly under running water with fingers pointed downward.	
Starting at the fingertips, dry fingers, hands and wrists on clean paper towel(s).	
Discard paper towels to trash container as used.	
Turn off faucet with a clean, dry paper towel and discard paper towel	
to trash container as used.	
Do not re-contaminate hands at any time during the hand washing	
procedure. (Such as touching the sides of the sink during the	
procedure or crumpling up the paper towel used to turn off the	
faucet with both hands before discarding, etc.)	

DRESSING A RESIDENT WITH AN AFFECTED (WEAK) SIDE

DRESSING A RESIDENT WITH AN AFFECTED (WEAK) SIDE	
Perform hand hygiene.	
a. Cover all surfaces of hands with hand sanitizer.	
b. Rub hands together until hands are completely dry.	
Explain the procedure to the resident.	
Provide for resident's privacy.	
Raise bed height.	
Keep resident covered while removing gown.	
Remove gown from unaffected side first.	
Place soiled gown in designated laundry hamper.	
Dress the resident in a button-up shirt. Insert hand through the	
sleeve of the shirt and grasp the hand of the resident.	
When dressing the resident in a button-up shirt, always dress from	
the affected (weak) side first.	
Assist the resident to raise her/his buttocks or turn the resident from	
side-to-side and draw the pants over the buttocks and up to the	
resident's waist.	
When dressing the resident in pants, always dress the affected	
(weak) side leg first.	
Put on the resident's socks. Draw the socks up the resident's foot	
until they are smooth.	
Leave the resident comfortably/properly dressed (pants pulled up to	
waist front and back and shirt completely buttoned).	
Lower bed, if it was raised.	
Place call light or signaling device within easy reach of the resident.	
Maintain respectful, courteous interpersonal interactions at all times.	
Perform hand hygiene.	
a. Cover all surfaces of hands with hand sanitizer.	
b. Rub hands together until hands are completely dry.	

FEEDING A DEPENDENT RESIDENT

Perform hand hygiene. a. Cover all surfaces of hands with hand sanitizer. b. Rub hands together until hands are completely dry. Explain the procedure to the resident. Ask resident to state name and verify name matches the name on the diet card. Position the resident in an upright, sitting position BEFORE feeding. At least 75-90 degrees. Protect clothing from soiling by using napkin, clothing protector, or towel. Provide hand hygiene for the resident BEFORE feeding. (Candidate may use a disposable wipe and dispose of in trash can -or- wash resident's hands with soap and a wet washcloth -or- they may rub hand sanitizer over all surfaces of the resident's hands until dry.) Ensure resident's hands are dry BEFORE feeding. (If a wet washcloth with soap was used, the candidate will need to dry the resident's hands. If a disposable wipe or hand sanitizer was used, must make sure hands are dry.) Place soiled linen in designated laundry hamper, or dispose in appropriate container, if used Sit in a chair, facing the resident, while feeding the resident. Describe the food and fluid being offered to the resident. Offer each fluid frequently. Offer small amounts of food at a reasonable rate. Allow resident 's hands and mouth AFTER the feeding demonstration. Remove clothing protector and place in designated laundry hamper. If napkin, dispose of in trash container. Leave resident's claculation must be within 25 percentage points of the RN Test Observer's.	ING A DEPENDENT RESIDENT
