INTRODUCTION

Congress adopted the Nursing Home Reform Act in 1987 as part of the Omnibus Budget Reconciliation Act (OBRA '87). This federal law was designed to improve the quality of care in long-term healthcare facilities and define training and evaluation standards for nursing aides who work in such facilities. Each state is responsible for following the terms of this federal law.

As defined in the OBRA regulations, a Nurse Aide Competency Evaluation program provides specific standards for nurse aide-related knowledge and skills. This program aims to ensure that candidates seeking to be nurse aides understand these standards and can competently and safely perform the job of an entry-level nurse aide.

This handbook describes the nurse aide competency examination process and is designed to help prepare candidates for testing. The examination has two parts: a multiple-choice knowledge test and a skill test. Candidates must pass both parts to be identified and listed on the Minnesota Nurse Aide Registry.

The Minnesota Department of Health (MDH) has approved D&S Diversified Technologies (D&SDT)-HEADMASTER to provide nurse aide testing and scoring services. For questions not answered in this handbook, please contact D&SDT-HEADMASTER at (800) 393-8664 or go to D&SDT-HEADMASTER's Minnesota webpage at www.hdmaster.com and click on 'Minnesota CNA'. The information in this handbook will help you prepare for your examination.

MINNESOTA NURSE AIDE REGISTRY REQUIREMENTS

The Minnesota Nurse Aide Registry registers qualified nurse aides to work in long-term care facilities, maintains information about nurse aides who have substantiated findings of abuse, neglect, and misappropriation of property, and approves and monitors nurse aide training and competency evaluation programs throughout Minnesota.

The Nurse Aide Registry lists nurse aides who have met Minnesota training and/or testing standards to work in nursing homes and certified boarding care homes. This is an online registry. Nurse aides, employers, and others can check the registry by using MDH's online system and the nurse aide's certificate number.

The registry does not maintain records of background checks. If you have questions about a background check, contact the Department of Human Services, Background Studies and Investigation Section, at (651) 431-6620.

To stay on the registry as a nurse aide:

- You must work at least 8 hours as a paid nursing assistant every 24 months. (A 24-month lapse of employment will result in an expired registry status.)
- You must provide a copy of a recent pay stub from your employer.
- If you are not working in a nursing home or an assisted living facility, you must provide a job description to show that you are providing assistance with the activities of daily living.

There is no requirement to submit in-service documentation related to the Nursing Assistant Registry. Nursing and boarding care homes must comply with state and federal regulations regarding in-service training.

Americans with Disabilities Act (ADA)

ADA Compliance

The Minnesota Department of Health (MDH) and D&SDT-Headmaster approve accommodations for candidates with disabilities or limitations that may affect their ability to perform the nurse aide competency examination. The testing facilities will provide candidates with reasonable accommodations approved by D&SDT-HEADMASTER/MDH. Accommodations are granted in accordance with the Americans with Disabilities Act (ADA).

If you have a qualified disability or limitation, you may request special accommodations for examination. D&SDT-HEADMASTER must approve accommodations in advance of the examination. The Request for Accommodations Form 1404MN-ADA can be found on D&SDT-HEADMASTER's Minnesota webpage at www.hdmaster.com. This form must be submitted to D&SDT-HEADMASTER, along with the documentation listed on the second page of the ADA application, for review for a special accommodation. **Please allow additional time for your request to be approved.**

When the review is completed, you will receive an email with your approved accommodations. If you have any questions regarding the ADA review process or specific required documentation, please call D&SDT-HEADMASTER at (800) 393-8664.

MN STATE

When an ADA request is approved, the candidate's TMU© account is updated with the approved accommodations, and D&SDT-HEADMASTER emails the candidate with the candidate's approved accommodations.

The approved accommodations email informs the candidate of the specifics of their approved accommodations and asks them to please notify their test site before scheduling a test so they can be accommodated. Allow the test site 10-14 business days to coordinate this accommodation.

- It is the candidate's responsibility to notify the test site of their approved accommodations before scheduling their test date so that the test site can coordinate the accommodation.

The RN Test Observer/Knowledge Test Proctor will see special notes on the check-in sheet (a list of candidates testing in the event) regarding approved accommodations that must be provided to the candidate during testing.

Unforeseen Circumstances Policy

MN State

Please check with the test site where you were scheduled to take your test for the particular policies regarding inclement weather and unforeseen circumstances.

In-Facility

If an exam date is canceled due to weather or other unforeseen circumstances, D&SDT-HEADMASTER staff will make every effort to contact you using the contact information (phone number/email) we have on file in your TMU account to reschedule you at no additional charge to a mutually agreed-upon new test date.

Therefore, you must keep your contact information up to date in case we need to contact you (*see examples below for reasons we may not be able to contact you that you are responsible for).

If D&SDT-HEADMASTER is unable to reach you via phone call or email with the information in your TMU account due to an unforeseen circumstance for a test event you are scheduled for, you will be removed from the test event, and D&SDT-HEADMASTER will not reschedule you until we hear back from you.

NOTE: The examples listed below are your responsibility to check and/or keep updated.

If D&SDT-HEADMASTER leaves you a message or emails you at the phone number or email in your TMU account, and:

- You do not call us back in a timely manner.
- Your phone number is disconnected/your voice mailbox is full.

MN State

If you are scheduled for your exam and do not show up without notifying your test site at least one full business day before your scheduled testing event, OR if you are turned away for lack of proper identification, proper attire, or any other reason to deem that you are ineligible to test, you will be considered a no-show status. Any test fees paid will not be refunded, and you must schedule a new test event.

If a reschedule or refund request is not received by your test site before the full business day preceding a scheduled test event, you will be considered a no-show status, and any test fees paid will not be refunded. You must repay the full testing fee to secure a test seat in a new test event.

MN STATE NO-SHOW STATUS EXCEPTIONS

Check with the test site where you were scheduled to take your test for the particular no-show exception policies.

In-Facility

If you are scheduled for your exam and do not show up without notifying D&SDT-HEADMASTER at least one full business day before your scheduled testing event, excluding Saturdays, Sundays, and holidays, OR if you are turned away for lack of proper identification, not arriving on time to the test site, or any other reason to deem you ineligible to test, you will be considered a no-show status. You will forfeit all fees paid and must sign in to your TMU account to repay or submit a new testing fee to schedule yourself into a new test event.

These fees partially offset D&SDT-HEADMASTER's costs for services requested and the resulting work performed. If a reschedule or refund request is not made or received before the full business day preceding a scheduled test event, excluding Saturdays, Sundays, and holidays (see examples under Rescheduling Policy and Refund of Testing Fees Paid), a NO-SHOW status will be assigned. You will forfeit your testing fees and must repay the full testing fee to secure a new test event.

IN-FACILITY NO-SHOW EXCEPTIONS

Official test results will be available after 7:00PM CT on the business day following your test event when you sign in to your TMU account. - 11) You can also click the 'Printer Icon' next to 'Test Actions' to print your results letter.
- 12) For the skill test, click 'View Failed Steps' next to the task to see any steps missed.

Test Attempts

You have **four attempts** to pass the knowledge exam and **three attempts** to pass the skill test portions of the exam either:

- Within 24 months of your date of training program completion, or
- From the first (knowledge or skills) test attempt as a challenge candidate.

If you have exhausted your knowledge or skill attempts prior to the 24-month cycle ending, you **MUST** complete another MDH-approved training program **BEFORE** you are eligible to re-test.

If your 24-month testing cycle has expired, and you **DID NOT** exhaust all of your testing attempts in the 24-month testing cycle, you can either:

- 1) Complete a new training program, or
- 2) Test as a challenge candidate.

Candidates CANNOT use previous successful test results for the new testing cycle. All past training and testing attempts will be void when a new training program is completed.

NOTE: Federal and State regulations allow healthcare facilities to employ students for up to 120 days from the day employment and training is offered in an approved facility-based nurse aide training and competency evaluation program. However, if you fail four attempts on the knowledge portion or three attempts on the skills portion of the state competency exam, the facility is no longer allowed to employ you to perform nurse aide duties.

Please refer to the MDH Nurse Aide Registry website for additional information at:

<https://www.health.state.mn.us/facilities/providers/nursingassistant/index.html>

Retaking the Nurse Aide Exam

If you fail the knowledge and/or skill portion of the examination, you will need to pay for the portion you failed before scheduling a new exam date when you apply for a retest.

MN State - Please contact the test site regarding payment of the testing fee.

Test Review Requests

You may request a review of your test results or dispute any other testing condition. The purpose of this review process is to ensure fairness and accuracy in the evaluation of your test.

PLEASE READ BEFORE FILLING OUT THE TEST REVIEW REQUEST: Please call D&SDT-HEADMASTER at (800) 393-8664 during regular business hours, Monday through Friday, 7:00AM to 7:00PM CT, excluding holidays, and discuss the test outcome you are questioning before committing to sending the \$25 test review request deposit fee.

Once you have further details about the scoring of your test, you will often understand the scoring process and learn how to better prepare yourself for subsequent exam attempts. If, after discussion with D&SDT-HEADMASTER staff, you still have a concern with your testing process that affected the outcome of your exam, you may submit a Test Review Request.

There is a \$25 non-refundable test review deposit fee. To request a review, complete the **Test Review Request and Payment Application**, available under APPLICATIONS on the MN State or In-Facility TMU main page (before you log in to your account).

Test Review Requests must be received within three business days from the official scoring of your test (excluding Saturdays, Sundays, and holidays). Late requests will be denied and will not be considered.

Since one qualification for certification as a nurse aide in Minnesota is demonstrated by examination of minimum nurse aide knowledge and skills, the likely outcome of your review will determine who pays for any retests that may be granted. If, after investigation, the review finding is in your favor, you will be refunded the \$25 test review deposit. If the findings of the review are not in your favor, the \$25 test review deposit will stand, and the fee is non-refundable.

D&SDT-HEADMASTER will review your detailed recollection, your knowledge test markings, and any skill task measurements you recorded at the time of your test, in addition to reviewing markings, notations, and measurements recorded by the RN Test Observer at the time of your test. We will interview the RN Test Observer, Actor, or Knowledge Test Proctor about the facts detailed in your dispute documentation. D&SDT-HEADMASTER will re-check the scoring of your test and may contact you and/or the RN Test Observer, Actor, and/or Knowledge Test Proctor, and other candidates who were on-site at your test event for any additional information about the test event.

D&SDT-HEADMASTER cannot review test results or reviews with the candidate's instructor/training program. After a candidate reaches the age of 18, D&SDT-HEADMASTER will only discuss test results or test reviews with the candidate. D&SDT-HEADMASTER will not review test results or reviews with family members or anyone else on behalf of the candidate once the candidate reaches 18 years of age.

D&SDT-HEADMASTER will complete your review request within ten business days of receiving it in the required time frame. D&SDT-HEADMASTER will email the review results to your email address and the Minnesota Department of Health.

THE MANUAL DEMONSTRATION SKILL TEST

The purpose of the Skill Test is to evaluate your performance when demonstrating MDH-approved nurse aide skill tasks. You will find a complete list of skill tasks in this handbook.

You will be asked to present the ID you showed the RN Test Observer at check-in.

Be sure you understand all instructions you read while in the waiting area before you begin your skill task demonstrations. You may not ask questions once the Skill Test begins and the timer starts. Once the Skill Test begins, the RN Test Observer may not answer questions.

Each of your randomly selected three or four tasks will have associated scenarios. The scenarios will be read to you by the RN Test Observer immediately before you are asked to do each task.

You will be allowed thirty minutes to complete your three or four tasks. After fifteen minutes have elapsed, you will be alerted when **15 minutes remain**.

Listen carefully to all instructions given by the RN Test Observer. You may request to have any of the scenarios **repeated at any time** during your Skill Test up until you run out of time or tell the RN Test Observer that you are finished with your skill task demonstrations.

To pass the Skill Test, you must correctly perform all of the **key** steps (in bold font) and must achieve 80% or higher on the non-key steps on each task assigned.

If you believe you made a mistake while performing a task, tell the RN Test Observer you would like to make a correction. You will need to correctly demonstrate the step or steps on the task you believe you performed incorrectly to receive credit for the correction.

You may repeat or correct **any step or steps** on any task you believe you have performed incorrectly **at any time** during your allotted 30 minutes or until you tell the RN Test Observer you are finished with the Skill Test.

The skill task steps are not order dependent unless the words BEFORE or AFTER are used in a step.

When you finish each task, verbally tell the RN Test Observer that you are finished, then move to the designated "relaxation area." When the RN Test Observer and actor have set up and are ready for your next skill task demonstration, the RN Test Observer will read the scenario for your next task.

All steps must actually be demonstrated. Steps that are only verbalized or simulated WILL NOT COUNT.

Skill Test Recording Form

If your skill test includes a skill task that requires recording a count or measurement, the RN test observer will provide a recording form similar to the one displayed on the next page. You are required to sign the recording form during the demonstration of the equipment/supplies.

Recording Form

Candidate's Name: _____	
PLEASE PRINT	
PULSE: _____	RESPIRATIONS: _____
URINARY OUTPUT: _____ ml	
GLASS 240ml: _____	
GLASS 120ml: _____	
TOTAL FLUID INTAKE: _____ ml	FOOD INTAKE: _____ %
Candidate's Signature: _____	

Skill Test Tasks

You will be assigned one of the following mandatory tasks with embedded hand washing using soap and water as your first task:

- Assist a Resident with the use of a Bedpan, Measure and Record Urine Output, and Hand Washing.
- Catheter Care for a Female Resident and Hand Washing (demonstrated on a manikin).
- Don PPE (Put on a Gown and Gloves), Empty a Urinary Drainage Bag, Measure and Record Urine Output, Doff PPE (Remove the Gown and Gloves), and Hand Washing.
- Perineal Care for a Female Resident and Hand Washing (demonstrated on a manikin).

Handwashing with soap and water is embedded in each mandatory task and must be demonstrated at the end of each task.

You will also receive an additional two or three randomly selected tasks from the Skill Task listing below. These selected tasks will make up your personalized and unique skill test. Each skill test randomly assigned by the TMU skill test assignment algorithm will be comparable in overall difficulty.

Skill Tasks Listing

To receive credit, you must actually perform and demonstrate every step during your skill test demonstration.

The steps listed for each task are required for a nurse aide candidate to successfully demonstrate minimum proficiency in the skill task for the RN Test Observer. **The steps will be performed on a live resident actor for all but two tasks: catheter care and perineal care for a female resident, which will be performed on a manikin.** You will be scored only on the steps listed.

If you fail the Skill Test, there will always be one of the first mandatory tasks to start each Skill Test. The other tasks included in your Skill Test are randomly chosen to ensure that every Skill Test is comparable in difficulty and has an average time to completion. The RN Test Observer will observe your demonstrations of your skill tasks and record what they see you do. D&SDT-HEADMASTER scoring teams will officially score and double-check your test.

Note: The skill task steps included in this handbook are offered as guidelines to help prepare candidates for the Minnesota nurse aide skill test, and the steps included herein are not intended to be used to provide complete care that would be all-inclusive of best care practiced in an actual work setting.
