INTRODUCTION

Congress adopted the Nursing Home Reform Act in 1987 as part of the Omnibus Budget Reconciliation Act (OBRA '87). This federal law was designed to improve the quality of care in long-term healthcare facilities and define training and evaluation standards for nursing aides who work in such facilities. Each state is responsible for following the terms of this federal law.

As defined in the OBRA regulations, a Nurse Aide Competency Evaluation program provides specific standards for nurse aide-related knowledge and skills. This program aims to ensure that candidates seeking to be nurse aides understand these standards and can competently and safely perform the job of an entry-level nurse aide.

The minimum age requirement to test in New Mexico is 16. This handbook describes the nurse aide competency examination process and is designed to help prepare candidates for testing. The examination has two parts: a multiple-choice knowledge test and a skill test. Candidates must pass both parts to be identified and listed on the New Mexico Nurse Aide Registry.

The New Mexico Health Care Authority (NMHCA) has approved D&S Diversified Technologies, LLP (D&SDT)-HEADMASTER, LLP to provide tests and scoring services for nurse aide testing. For questions not answered in this handbook, please get in touch with D&SDT-HEADMASTER at (888) 401-0462 or go to D&SDT-HEADMASTER's [New Mexico Nurse Aide web page](#). The information in this handbook will help you prepare for your examination.

NEW MEXICO NURSE AIDE REGISTRY REQUIREMENTS

The New Mexico Nurse Aide Registry (NMNAR) lists the names of nurse aides who, through training, testing, and experience, meet federal and/or state requirements to work as nurse aides in New Mexico. The Registry includes substantiated findings of nurse aide abuse, neglect, misappropriation of resident property, or exploitation involving a nurse aide at a New Mexico Health Care Authority (NMHCA) licensed medical facility. Upon successfully completing training, passing both the knowledge and skills portions of the competency exam, and meeting federal and/or state requirements, a nurse aide candidate will be listed on the NMNAR.

Review the **Nurse Aide Competency Exam** section to help prepare for the exam.

Registry Maintenance

Once placed on the New Mexico Registry, it is your responsibility to keep your demographic information up to date so that renewal notifications/alerts can be delivered to you promptly. You must renew electronically by signing in to your TMU© account at nm.tmutest.com. Use your Email or Username and Password to sign in. If you are new to the system or have forgotten your password, refer to the **Forgot my Password** section in this handbook to reset your password. If you need assistance signing in to your TMU© account, call D&SDT-HEADMASTER at (888) 401-0462. Renewal reminders are emailed to your TMU© account email address of record and/or texted to your SMS-capable phone, so keeping your contact information current is important.

Note: Renewal notifications/alerts are sent via email and text message 30 days before your certification expires. No renewal certifications are sent via USPS mail. It is important to keep your TMU© demographic information up to date to receive your renewal notification.

DEMOGRAPHIC UPDATES / CHANGES / CORRECTIONS

Registry name changes (marriage/divorce, etc.), date of birth changes, social security number corrections, etc., must be verified with appropriate documentation. Please complete the [DEMOCRAPHIC CHANGE/CORRECTION REQUEST FORM](#) and upload your demographic change/correction documentation. The form is under 'APPLICATIONS' on the New Mexico TMU© main web page (before you log in to your account), or click on this link: <https://nm.tmutest.com/apply/6>.

Registry Renewal

To maintain eligibility to work, you must renew your eligibility every twenty-four months. To be eligible to renew, you must work for pay as a nurse aide performing nursing or nursing-related services at least eight (8) consecutive hours during the previous twenty-four months. Nurse aides with misconduct restrictions on the Registry are not eligible for renewal. You are allowed 30 days after your certification expires to renew. If your license has been expired over 30 days, you will need to test to recertify.

To renew, sign in to your TMU© account at nm.tmutest.com and list your work hours and where you were employed (nursing home, hospital, hospice, home health agency, or ICF/MR facility). Use your Email or Username and Password to sign in. If you are new to the system or have forgotten your password, refer to the **Forgot my Password and Recover my Account** section in this handbook to reset your password. An email verification link will be sent to the employer contact you choose from the list of employers. When the employer verifies your work experience, your eligibility will be extended an additional twenty-four months.

- If you work for an employment agency, you must submit your employment verification request to a facility at which you have worked hours through your agency.
- Employment agencies are not listed in the list of employers and cannot verify your employment.
- Employment as a private-duty aide, doctor's office aide, laboratory aide, personal care home assisted living aide, or personal care home residential living aide does not qualify for recertification.
- If you are not employed as a nurse aide at the time of recertification, you must submit your employment verification request to a facility at which you have previously worked. If your previous employer will not verify your employment, you should choose the 'HCA Renewal – Documentation Required' option, and the New Mexico Health Care Authority (NMHCA) will review and approve your verification.

Renewal Instructions

To renew your certification, sign in to your TMU© account at nm.tmutest.com.

If you do not know your Password, enter your email address and click on 'Forgot Your Password?' You will be asked to re-enter your email, and a 'reset password link' will be sent to your email (see the **Forgot your Password and Recover your Account** section). If you are unable to sign in for any reason, contact D&SDT-HEADMASTER at (888) 401-0462.

There are three options to pay the renewal fee:

- **Self-Pay:** pay the fee yourself with a credit card.
- **Sponsor Payment:** your employer pays the fee for you.
- **New Mexico Health Care Authority Funded Facility:** There is no renewal fee.

Please see detailed instructions on [D&SDT-HEADMASTER's New Mexico website](#). Click [How to Renew your Certification in TMU®](#).

Under federal regulations, a nurse aide becomes ineligible for employment if they do not perform at least 8 hours of nursing-related services for pay in a health care setting within each twenty-four month renewal period. To re-establish employment eligibility on the NMNAR, you must successfully pass both components of the approved New Mexico NA nurse aide competency examination.

Contact D&SDT-HEADMASTER for authorization to schedule the competency test to regain employment eligibility status.

Reinstatement

Reinstatements of lapsed New Mexico certifications are processed as follows:

- If you are on the New Mexico CNA Registry (NMNAR) and your certification has lapsed ***less than 24 months***, you may reinstate your certificate via retesting. Training will not be required if your expiration date is within the past 24 months at the time you apply. To apply for reinstatement under these circumstances, please contact D&SDT-HEADMASTER at (888) 401-0462 to request that your account be updated to allow you to reactivate by exam.
 - Candidates have 24 months from the date their certification expired to pass both parts of the Competency Examination.
- If your certification has lapsed more than 24 months, but you have been working in a nursing-related field for at least 24 months, you may reinstate your certification via retesting. To apply for reinstatement under these circumstances, please go to the New Mexico TMU nm.tmutest.com, click 'APPLICATIONS' or nm.tmutest.com/apply, and choose the **REACTIVATION BY EXAM (Lapsed MORE THAN 24 Months)**. Once the NMHCA approves your eligibility to test, an account will be created in the New Mexico TMU© for you. You will be emailed your username and password to log in to your TMU© account, pay your testing fee, and schedule a test date. You must complete your testing within six months of your eligibility to test.
 - You will need to submit a letter from your employer on company letterhead listing the following information:
 - Employee's name
 - Employee's title
 - Employee's hire date(s)
 - A detailed list of employee's job duties
- If your certification **lapsed more than 24 months ago and you have not worked in a nursing-related field in the past 24 months**, you must successfully complete a New Mexico state-approved nurse aide training program and then take and pass the Competency Examination to become certified.
 - Candidates have 24 months from completing their training program to take and pass both parts of the Competency Examination.

Registry Reciprocity

This information is for applicants who want to be entered on the NMNAR through the New Mexico Reciprocity/Out-of-State registry placement process.

To apply for reciprocity placement on the NMNAR, you must complete an Out-of-State Reciprocity Application in the New Mexico TMU© nm.tmutest.com by clicking 'APPLICATIONS' or nm.tmutest.com/apply and choosing the **Reciprocity Form** application.

Once your completed application and all required documentation have been received, the NMHCA will determine if you are eligible to be added to the New Mexico Nurse Aide Registry. You must have a valid email address to receive your TMU© login username and temporary password. You may check your New Mexico Nurse Aide Registry listing

at nm.tmutest.com. Any personal information entered into TMU© will only be used to determine whether you can work as a nurse aide in New Mexico. Before scheduling a test, verify with your instructor if the training program has already prepaid for your test.

If D&SDT-HEADMASTER is unable to reach you via phone call or email with the information in your TMU© account (*see examples below) due to an unforeseen circumstance for a test event for which you are scheduled, you will be removed from the test event, and D&SDT-HEADMASTER will not reschedule you until we hear back from you.

These fees partially offset D&SDT-HEADMASTER's costs incurred for requested services and the resulting work performed. If you do not reschedule or request a refund at least one (1) full business day before a scheduled test event, excluding Saturdays, Sundays, and holidays (see examples in the Rescheduling Policy and Refund of Testing Fees Paid sections), you will be marked as NO-SHOW. Test Attempts

You have **three (3) attempts within 24 months of completion of training** to pass the knowledge and skill test portions of the exam. If you fail three attempts on either the knowledge or skills test component, you must complete a New Mexico Health Care Authority (NMHCA) approved training program to become eligible to attempt the New Mexico NA examinations further.

NOTE: Federal and State regulations allow healthcare facilities to employ students for up to 120 days from the day employment and training is offered in an approved facility-based nurse aide training and competency evaluation program. However, if you do not pass the state competency exam's knowledge and skills portions within 120 days, the facility can no longer employ you to perform nurse aide duties.

Retaking the Nurse Aide Exam

If you fail the knowledge and/or skill portion of the examination, you will need to pay for the portion you failed before you can schedule a new exam date.

You can schedule a test or re-test online by signing in to your TMU© account with your Email or Username and Password at nm.tmutest.com. (See instructions with screenshots under **Schedule / Reschedule a Test Event.**)

You will need to pay with a Visa or MasterCard credit/debit card before you can schedule.

If you need assistance scheduling your re-test, please call D&SDT-HEADMASTER at (888) 401-0462 during regular business hours, 6:00AM to 6:00PM MT, Monday through Friday, excluding holidays. We can help you schedule a test or retest date, provided your fees have been paid.

Test Review Requests

You may request a review of your test results or dispute any other testing condition. The purpose of this review process is to ensure fairness and accuracy in the evaluation of your test.

***PLEASE READ BEFORE FILLING OUT THE TEST REVIEW REQUEST:** Please call D&SDT-HEADMASTER at (888) 401-0462 during regular business hours, Monday through Friday, 6:00AM to 6:00PM MT, excluding holidays, and discuss the test outcome you are questioning before committing to sending the \$25 test review request deposit fee. Once you have further details about the scoring of your test, you will often understand the scoring process and learn how to better prepare yourself for subsequent exam attempts. If, after discussion with D&SDT-HEADMASTER staff, you still have a concern with your testing process that affected the outcome of your exam, you may submit a Test Review Request.

There is a \$25 non-refundable test review deposit fee. To request a review, complete the [Test Review Request and Payment Application](#), available on the New Mexico TMU© main page (before you log in to your account) at nm.tmutest.com. Test Review Requests must be received **within three (3) business days from the official scoring of your test** (excluding Saturdays, Sundays, and holidays). Late requests will be denied and will not be considered.

Since one qualification for certification as a nurse aide in New Mexico is demonstrated by examination of minimum nurse aide knowledge and skills, the likely outcome of your review will determine who pays for any retests that may be granted. If, after investigation, the review finding is in your favor, you will be refunded the \$25 test review deposit. If the findings of the review are *not in your favor*, the \$25 test review deposit will stand, and the fee is non-refundable.

D&SDT-HEADMASTER will review your detailed recollection, your knowledge test markings, and any skill task measurements you recorded at the time of your test, in addition to reviewing markings, notations, and measurements recorded by the RN Test Observer at the time of your test. We will interview the RN Test Observer, Actor, or Knowledge Test Proctor about the facts detailed in your dispute documentation. D&SDT-HEADMASTER will re-check the scoring of your test and may contact you and/or the RN Test Observer, Actor, and/or Knowledge Test Proctor, and other candidates who were on-site at your test event for any additional information about the test event.

D&SDT-HEADMASTER cannot review test results or reviews with the candidate's instructor/training program. After a candidate reaches the age of 18, D&SDT-HEADMASTER will only discuss test results or test reviews with the candidate. D&SDT-HEADMASTER will not review test results or reviews with family members or anyone else on the candidate's behalf once the candidate is 18.

D&SDT-HEADMASTER will complete your review request within ten (10) business days of receiving it. D&SDT-HEADMASTER will email the review results to your email address and the New Mexico Health Care Authority (NMHCA).

THE MANUAL DEMONSTRATION SKILL TEST

- The purpose of the Skill Test is to evaluate your performance when demonstrating NMHCA-approved nurse aide skill tasks. You will find a complete list of skill tasks in this handbook.
- You will be asked to present your ID, which you showed the RN Test Observer at check-in.

- Be sure you understand all instructions you read while in the waiting area before you begin your skill task demonstrations. You may not ask questions once the Skill Test begins and the timer starts. Once the Skill Test begins, the RN Test Observer may not answer questions.
- Each of your randomly selected three (3) or four (4) tasks will have scenarios associated with them. The scenarios will be read to you by the RN Test Observer immediately before you are asked to do each task.
- You will be allowed **thirty (30) minutes** to complete your three or four tasks. After fifteen (15) minutes have elapsed, you will be alerted when 15 minutes remain.
- Listen carefully to all instructions given by the RN Test Observer. You may request to have any of the scenarios repeated **at any time** during your Skill Test up until you run out of time or tell the RN Test Observer that you are finished with your skill task demonstrations.
- You must correctly perform all of the **critical** steps (in **bold** font) and 80% of all non-key steps on each task assigned to pass the Skill Test.
- If you believe you made a mistake while performing a task, tell the RN Test Observer you would like to make a correction. You will need to correctly demonstrate the step or steps on the task you believe you performed incorrectly to receive credit for the correction.
- You may repeat or correct **any step** or **steps** on any task you believe you have performed incorrectly at **any time** during your allotted 30 minutes or until you tell the RN Test Observer you are finished with the Skill Test.
- The skill task steps are not order dependent unless the words BEFORE or AFTER are used in a step.
- When you finish each task, verbally tell the RN Test Observer you are finished and move to the designated “relaxation area.” When the RN Test Observer and actor have set up and are ready for your next skill task demonstration, the RN Test Observer will read the scenario for your next task.
- **All steps must actually be demonstrated. Steps that are only verbalized or simulated WILL NOT COUNT.**

Skill Test Recording Form

If your skill test includes a skill task that requires recording a count or measurement, the RN test observer will provide a recording form similar to the one displayed. You must sign the recording form during the demonstration of the equipment/supplies.

Skill Test Tasks

You will be assigned one of the following mandatory tasks with embedded handwashing using soap and water as your first task:

- Assist a Resident with the use of a Bedpan with Hand Washing
- Catheter Care for a Female Resident with Hand Washing [\[DEMONSTRATED ON MANIKIN\]](#)
- Don [PUT ON] PPE (Gown and Gloves), Empty a Urinary Drainage Bag, Measure and Record Urine Output and Doff [REMOVE] PPE with Hand Washing
- Perineal Care for a Female Resident with Hand Washing [\[DEMONSTRATED ON MANIKIN\]](#)

Note: Hand washing with soap and water is embedded in each mandatory task and must be demonstrated at the end of each task.

You will also receive an additional two (2) or three (3) randomly selected tasks from the Skill Task listing below. These selected tasks will make up your personalized and unique skill test. Each skill test randomly assigned by the TMU© skill test assignment algorithm will be comparable in overall difficulty.

Skill Tasks Listing

To receive credit, you must actually perform and demonstrate every step during your skill test demonstration.

The steps listed for each task are required for a nurse aide candidate to successfully demonstrate minimum proficiency in the skill task for the RN Test Observer. **You will perform the steps on a live resident actor for all tasks except two: catheter care and perineal care for a female resident, which will be performed on a manikin.** You will be scored only on the steps listed.

If you fail the Skill Test, there will always be one of the first mandatory tasks to start each Skill Test. The other tasks included in your Skill Test are randomly selected so that each Skill Test is comparable in difficulty and has an average time to complete. The RN Test Observer will observe your demonstrations of your skill tasks and record what they see you do. D&SDT-HEADMASTER scoring teams will officially score and double-check your test.

Note: The skill task steps included in this handbook are offered as guidelines to help prepare candidates for the New Mexico nurse aide skill test, and the steps included herein are not intended to be used to provide complete care that would be all-inclusive of best care practiced in an actual work setting.
