

## Welcome New Mexico CNA Instructors!

Our Instructor Workshops are designed to give you insights into the testing process so you can better prepare your test candidates for the exam.

We will review things you can do to help your candidates succeed in the testing process and what is expected of the candidates at the time of testing. We will discuss training program reports so you can see how your candidates are doing in each subject category on the knowledge exam and how they perform on each task in the skill exam.

The dates and times are listed below. Please click on the link for the workshop you would like to join on that day and time.

We look forward to seeing you there!
