WELCOME TO YOUR SKILL TEST

The RN Test Observer does not decide whether or not you pass or fail. The RN Test Observer only observes and records the steps she/he sees you demonstrate. D&SDT-HEADMASTER staff in Helena, Montana, scores your test when the RN Test Observer submits it for scoring.

- The first thing the Test Observer will do when you enter the skill test area is to show you the designated area where you can place your personal belongings, cell phone (turned off), etc.
- Then the Test Observer will show you where the relaxation area is located.
- You will be asked to show your ID as a double check to ensure the Test Observer has your personalized skill test.
- The Test Observer will sit beside you and ask you if you have any questions about these instructions.
- The next thing the Test Observer will do is tell you the tasks you will demonstrate.
- Then the Test Observer will show you the location of the supplies you will need for your tasks and will demonstrate the equipment you will use for your assigned tasks. You will have an opportunity to ask the Test Observer any questions you may have during the equipment demonstration.
- You will have **35** minutes to complete your assigned skill tasks.
- Each of your skill tasks has a scenario. The Test Observer will read **one scenario at a time** to you. As soon as you understand the scenario, please actually perform and demonstrate the task.
- During the demonstration of your first task:
 - You may use hand sanitizer at the beginning of the task.
 - When appropriate, toward the end of your first task, you must actually wash your hands with soap and water.
- During the demonstration of your other tasks, when appropriate, you may use hand sanitizer instead of actually washing your hands with soap and water.
- Steps **that are only verbalized do not count**.
- At any time, before your initial 35 minutes expires, you may:
 - Ask the Test Observer to **reread** any scenario.
 - Correct any step on any task you believe you did incorrectly.
 - To make a correction, you must tell the Test Observer the specific task and what step(s) you will **re-demonstrate**.
- When finished with each task, tell the Test Observer you are finished and return to the relaxation area.
- Two timers will be set when you begin your skill test. The first timer will sound when 15 minutes remain and the second timer will sound when all 35 minutes have elapsed.
- The TO will read your first scenario to you and will start the timers when you begin your first demonstration.
