NOTES:..... 44

Introduction

In 1987, the Nursing Home Reform Act was adopted by Congress as part of the Omnibus Budget Reconciliation Act (OBRA '87). It was designed to improve the quality of care in long-term health care facilities and to define training and evaluation standards for Nursing Assistants who work in such facilities. Each state is responsible for following the terms of this federal law.

As defined in the OBRA regulations, a nurse aide competency evaluation program provides specific standards for nurse aide related knowledge and skills. The purpose of a nurse aide competency evaluation program is to ensure that candidates who are seeking to be nurse aides understand these standards and can competently and safely perform the job of an entry-level nurse aide.

This handbook describes the process of taking the nurse aide competency examination and is designed to help prepare candidates for testing. There are two parts to the nurse aide competency examination—a multiple-choice, knowledge test and a skill test. Candidates must pass both parts of the nurse aide competency exam to be identified as state tested and listed on the Ohio Nurse Aide Registry.

Ohio has approved D&S Diversified Technologies, LLP (D&SDT) to provide tests and scoring services for nurse aide testing. For questions not answered in this handbook, please contact D&SDT at toll free (877)851-2355 or go to the Ohio STNA webpage at http://hdmaster.com/testing/cnatesting/ohio/OH_STNA_Home.htm. The information in this handbook will help you prepare for your examination.

Nurse Aide Registry Requirements

The Nurse Aide Registry provides a list of all State Tested Nurse Aides (STNA) in Ohio. The registry also maintains records of those nurse aides who have had a finding of abuse, neglect or misappropriation of property against them.

The Nurse Aide Registry keeps track of those individuals who have met written and skills test criteria to be certified for employment in long-term care settings, usually nursing homes. Once certified, nurse aides must meet certain requirements to maintain their certification and continue to be listed on the Nurse Aide Registry as able to work in Ohio. Please review the [Nurse Aide Registry Requirements](#). The registry also maintains records of those nurse aides who have had a finding of abuse, neglect or misappropriation of property against them.

The most significant achievement for this area was giving facilities or any individual the ability to inquire on the status of a state tested nurse aide by accessing the registry through the internet. This gives the customer three options to conduct an inquiry. They can call the nurse aide registry and use the voice automated system, talk to a nurse aide registry customer service technician, or use the web-based verification system. This addition will reduce the time it takes to verify the status of a state tested nurse aide. Select the link to access the Nurse Aide Registry: [NURSE AIDE REGISTRY](#)

Additional questions regarding nurse aide registry requirements, lapsed certification and transfer of certification to or from another state may be addressed to the Nurse Aide Registry at (800)582-5908. If you have questions regarding location and dates for nurse aide training classes you may call (614) 752-8285 or view the [NATCEP Program](#) information page.

Prior to scheduling a test, verify with your instructor if the training program has already scheduled your test. Regional test seats are open to all candidates. Regional test dates are posted on the Ohio STNA TMU© webpage at <https://oh.tmuniverse.com>.

No Shows

If you are scheduled for your exam and do not show up without notifying D&SDT at least one (1) full business day prior to your scheduled testing event, **excluding** Saturdays, Sundays and Holidays, OR if you are turned away for lack of proper identification, proper attire, or any other reason to deem you ineligible to test, you will be considered a **NO SHOW**. You will forfeit all fees paid and must sign into your TMU© record to repay or submit a new testing fee to schedule yourself into a new test event.

These fees partially offset D&SDT cost incurred for services requested and resulting work that is performed. If a reschedule or refund request is not received before the one (1) full business day preceding a scheduled test event, excluding Saturdays, Sundays and Holidays (see examples under Reschedules and Refunds of Testing Fees Paid), a NO SHOW status will exist and you will forfeit your testing fees and must repay the full testing fee to secure a new test event.

No Show Exceptions

Exceptions to the No Show status exist; if you are a No Show for any test component for any of the following reasons, a free reschedule will be authorized to the remitter of record providing **the required documentation is received within the appropriate time frames outlined below:**

- **Car breakdown:** D&SDT must be contacted within one business day via phone call, fax or email and a tow bill, mechanic bill or other appropriate documentation must be submitted within **three (3) business days** of the exam date. If we do not receive proof within the 3 business day time frame you will have to pay as though you were a No Show.

- **Medical emergency:** D&SDT must be contacted within one business day via phone call, fax or email and a doctor's note must be submitted within **three (3) business days** of the missed exam date. If we do not receive proof within the 3 business day time frame you will have to pay as though you were a No Show.
- **Death in the family:** D&SDT must be contacted within one business day via phone call, fax or email and an obituary for **immediate family only** submitted within **seven (7) business days** from a missed exam date. (Immediate family is parents, grand and great-grand parents, siblings, children, spouse or significant other.)

NOTE: Federal and State regulations allow health care facilities to employ students for up to 120 days from the day employment and training is offered in an approved facility-based nurse aide training and competency evaluation program. However, if you fail three attempts on either portion of the state competency exam, the facility is no longer allowed to employ you to perform nurse aide duties.

Laminated Certified STNA Card

When you successfully pass both components of the nurse aide exam, your passed results letter with your laminated STNA card will be mailed to the address in your record.

EFFECTIVE: October 1, 2020

Test Attempts

You have **three attempts** to pass the knowledge and skill test portions of the exam within two (2) years from your date of nurse aide training program completion. If you do not complete testing within two years from completion of training, you must complete a new ODH approved training program in order to become eligible to further attempt Ohio STNA examinations.

Retaking the Nursing Assistant Test

In the event that you fail the knowledge and/or skill portion of the examination, when you want to apply for a retest, you will need to repay for the portion that you failed before you can schedule a new exam date.

You can schedule a test or re-test on-line in your TMU© record with your Email or Username and Password online at: <https://oh.tmuniverse.com>.

You will need to pay with a Visa or Master Card before you are able to schedule. (See instructions with screen shots under 'Schedule/Reschedule into a Test Event'.) Call D&SDT at (877)851-2355 if assistance is needed.

Or, you may schedule a re-test by completing the Scheduling and Payment [Form 1402OH](#):

- Fill out Exam types and Fee payment on a new Scheduling and Payment Form 1402OH and choose test dates from the calendar of events in TMU© and write them on the Scheduling and Payment Form 1402OH under Option 1 (Regional Test Site Schedule).
- You will need to submit your Scheduling and Payment Form 1402OH to D&SDT either by fax at (406)442-3357 (\$5.00 extra fax fee applies), email at hdmaster@hdmaster.com (scan or image and attach) or mail to P.O. Box 6609, Helena, MT 59604.

If you need assistance scheduling your re-test, please call D&SDT at (877)851-2355. We are able to assist you in scheduling a test or re-test date as long as your fees have been paid first.

Test Review Requests

You may request a review of your test results or dispute any other condition of your testing. **There is a \$25 test review deposit fee.** To request a review, you must submit the Scheduling and Payment [Form 1402OH](#), check the Test Review Fee of \$25 (cashier's check, money order, credit [Visa or Master Card only] or debit card with expiration date) and a detailed explanation of why you feel your dispute is valid via email, fax or mail **within three (3) business days** from official scoring of your test (excluding Saturdays, Sundays and Holidays). Late requests will be returned and will not be considered.

Please call D&SDT at (877)851-2355 and discuss the test outcome you are questioning before committing to sending the \$25 test review request deposit fee. Many times, once you have further details about the scoring of your test, you will understand the scoring process and learn how you can better prepare yourself for subsequent exam attempts. If, after discussion with D&SDT staff, you still have a concern with your testing process that affected the outcome of your exam, you may submit a Test Review Request.

Since one qualification for certification as an STNA in Ohio is demonstration by examination of minimum nurse aide knowledge and skills, the likely outcome of your review will determine who pays for your re-test. If the

Ohio Nursing Assistant Candidate Handbook

EFFECTIVE: October 1, 2020

results of the review are in your favor, D&SDT will pay your re-test fee. D&SDT will review your detailed recollection, your knowledge test markings and any skill task measurements you recorded at the time of your test, in addition to reviewing markings, notations and measurements recorded by the RN Test Observer at the time of your test. D&SDT will re-check the scoring of your test and may contact you and/or the RN Test Observer for any additional recollection of your test(s). After a candidate reaches the age of 18, D&SDT will only discuss test results or test disputes with the candidate or the candidate's training program/instructor. D&SDT will not review test results or disputes with family members or anyone else on behalf of the candidate once the candidate is 18 years of age. D&SDT will complete your review request within 10 business days of the receipt of your timely review request and will email the review results to your email address and to the Ohio Department of Health.

The Knowledge/Oral Test

You will be required to re-present your ID when you enter the knowledge test room and when you enter the skills lab for your skills exam. Please keep your ID with you during the entire exam day.

The Knowledge Test Proctor will hand out materials and give instructions for taking the Knowledge Test. You will have a maximum of ninety (90) minutes to complete the 79 question Knowledge Test. You will be told when fifteen (15) minutes remain. You may not ask questions about the content of the Knowledge Test (such as "What does this question mean?") For paper tests, fill in only one oval on the answer sheet for each question. Do not mark in the testing booklet. Marks in the test booklet will not be accepted as answers. Your answers must appear on the separate scan form answer sheet.

- For paper Knowledge tests, you must bring several sharpened Number 2 pencils with erasers. Do not bring or use ink pens.
- The Knowledge Test Proctor will have scratch paper and a basic calculator available for use during your knowledge exam.

EFFECTIVE JULY 1, 2019: You must have a score of 75% or better to pass the knowledge portion of the exam.

Electronic TMU© testing using Internet connected computers is utilized at several sites in Ohio. For electronic tests, the Knowledge test portion of your exam will be displayed on a computer screen for you to read and key in your answers. Testing online with TMU© allows next business day scoring of tests and eliminates examination material shipping time so test results are available days sooner than with traditional paper and pencil testing.

Note: You will need to know your Email or Username and Password to take an electronic TMU© Knowledge test.

An audio (Oral) version of the knowledge test is available. However, you must request an Oral test before you submit your testing fee payment. There is an additional \$10 charge for an Oral Test. The questions are read to you, in a neutral manner from a cassette tape with control buttons enabling you to play, rewind or pause questions as needed, in addition to having the knowledge test booklet and scan form for the paper test. For TMU© electronic tests, the questions are read to you, in a neutral manner, and can be heard through

Ohio Nursing Assistant Candidate Handbook

EFFECTIVE: October 1, 2020

headphones/ear buds plugged into the computer. When taking an electronic Oral exam, the oral control buttons will be displayed on the computer screen enabling you to play, rewind or pause questions as needed.

Please note: On the Oral Knowledge Test, only the first 59 questions will be read orally, the remaining twenty questions will have to be answered without oral assistance to assess English reading comprehension.

Foreign language translation dictionaries must be shown to the RN Test Observer at check-in and to the Knowledge Test Proctor when you enter the knowledge test room. No electronic dictionaries are allowed. No definitions or writing is allowed in the translation dictionary. If there is any writing or definitions, the translation dictionary will not be permitted to be used during testing.

All test materials (including scratch paper and calculator) must be left in the testing room. Anyone who takes or tries to take materials, notes or information from the testing room is subject to prosecution and will be reported to the Ohio Department of Health.

The Knowledge Test consists of 79 multiple-choice questions. Questions are selected from subject areas based on the ODH approved Ohio test plan and include questions from all the required categories as defined in the federal regulations. The subject areas are as follows:

The Manual Skill Test

- The purpose of the Skill Test is to evaluate your performance when demonstrating Ohio approved nurse aide skill tasks. You will find a complete list of skill tasks in this handbook.
- You will be asked to re-present your ID that you showed the RN Test Observer at sign-in.
- Be sure you understand all instructions you read while in the waiting area before you begin your skill task demonstrations. You may not ask questions once the Skill Test begins and the timer starts. Once the Skill Test begins, the RN Test Observer may not answer questions.
- Each of your randomly selected three (3) or four (4) tasks will have scenarios associated with them. The scenarios will be read to you by the RN Test Observer immediately before you are asked to do each task.
- You will be allowed a maximum of **thirty-five (35) minutes** to complete your three (3) or four (4) tasks. After 20 minutes have elapsed, you will be alerted that 15 minutes remain.
- Listen carefully to all instructions given by the RN Test Observer. You may request to have any of the scenarios repeated **at any time** during your Skill Test up until you run out of time or tell the RN Test Observer that you are finished with your skill task demonstrations.
- You must correctly perform all of the **key** steps (in bold font) and 80% of all non-key steps on each task assigned in order to pass the Skill Test.
- If you believe you made a mistake while performing a task, tell the RN Test Observer you would like to make a correction. You will need to correctly demonstrate the step or steps on the task you believe you performed incorrectly in order to receive credit for the correction.

Ohio Nursing Assistant Candidate Handbook

EFFECTIVE: October 1, 2020

- You may repeat or correct **any step** or **steps** on any task you believe you have performed incorrectly at **any time** during your allotted thirty-five minutes or until you tell the RN Test Observer you are finished with the Skill Test.
- The skill task steps are not order dependent, unless the words BEFORE or AFTER are used in a step.
- When you finish each task, verbally tell the RN Test Observer you are finished and move to the designated “relaxation area.” When the RN Test Observer and actor have set up and are ready for your next skill task demonstration, the RN Test Observer will read the scenario for your next task.
- **All steps must actually be demonstrated. Steps that are only verbalized WILL NOT COUNT.**

Skill Test Recording Form

The RN test observer will provide a recording form similar to the one displayed below if your skill test includes a skill task which requires recording a count or measurement.

Ohio Nursing Assistant Candidate Handbook

EFFECTIVE: October 1, 2020

You will also receive an additional one (1) or two (2) randomly selected tasks from the Skill Task listing below. These selected tasks will make up your personalized and unique skill test. Each skill test randomly assigned by the TMU© skill test assignment algorithm will be comparable in overall difficulty.

Skill Tasks Listing

Every step must actually be performed and demonstrated during your skill test demonstration in order to receive credit.

The steps that are listed for each task are the steps required for a nurse aide candidate to successfully demonstrate minimum proficiency of the skill task for the RN Test Observer. The steps will be performed on a live resident actor for most of the tasks (the perineal care for a female, catheter care and changing an adult brief with perineal care for a male will be done on a manikin). You will be scored only on the steps listed. **You must have a score of 80% on each task without missing any key steps (the Bolded steps) to pass the skill component of your competency evaluation.** If you fail the Skill Test, one of the tasks on your retest will be a task you previously failed. There will always be one of the first mandatory tasks to start each Skill Test and one PPE task. The other tasks included on your Skill Test are randomly chosen so that every Skill Test is comparable in difficulty and average length of time to complete. The RN Test Observer will observe your demonstrations of your skill tasks and record what she/he sees you do. D&SDT scoring teams will officially score and double check your test.

Please note: The skill task steps included in this handbook are offered as guidelines to help prepare candidates for the Ohio nurse aide skill test and the steps included herein are not intended to be used to provide complete care that would be all inclusive of best care practiced in an actual work setting.
