Introduction

In 1987, the Nursing Home Reform Act was adopted by Congress as part of the Omnibus Budget Reconciliation Act (OBRA '87). It was designed to improve the quality of care in long-term health care facilities and to define training and evaluation standards for nurse aides who work in such facilities. Each state is responsible for following the terms of this federal law.

As defined in the OBRA regulations, a nurse aide competency evaluation program provides specific standards for nurse aide related knowledge and skills. The purpose of a nurse aide competency evaluation program is to ensure that candidates who are seeking to be nurse aides understand these standards and can competently and safely perform the job of an entry-level nurse aide.

This handbook describes the process of taking the nurse aide competency examination and is designed to help prepare candidates for testing. There are two parts to the nurse aide competency examination—a multiple-choice knowledge test and a skill test. Exam candidates must be registered, complete approved nurse aide education, pass both parts of the exam and meet all other requirements of the Oregon State Board of Nursing (OSBN) for certification in Oregon and to have their name placed on the Oregon Nurse Aide Registry.

Oregon approved D&S Diversified Technologies (D&SDT)-Headmaster LLP to provide tests and scoring services for nurse aide testing. For question not answered in this handbook, please contact D&SDT-Headmaster at (800)393-8664 during regular business hours 6:00AM to 6:00PM (MST)/5:00AM to 5:00PM (PST), Monday through Friday, excluding Holidays, or go to D&SDT-Headmaster’s Oregon webpage at www.hdmaster.com. The information in this handbook will help you prepare for your examination and should be kept for future reference.

The Oregon Nurse Aide Competency Exam

Released to Test by OSBN

You will receive an email once you are released to test by OSBN. First time exam candidates will be able to schedule to take the knowledge test and skill test on the same day at either an approved Oregon State Board of Nursing regional exam site or at an approved OSBN in-facility exam site.

You must apply for the state competency exam **within one year of your date of nurse aide education program completion**. Your exam date can be scheduled online at <https://or.tmuniverse.com>. (See instructions under ‘Scheduling/Rescheduling into a Test Event’.) If you need help scheduling an exam, please call D&SDT-Headmaster at (800)393-8664 during regular business hours 6:00AM to 6:00PM (MST)/5:00AM to 5:00PM (PST), Monday through Friday, excluding Holidays.

Note: In-facility exam dates are normally arranged by nurse aide education program instructors. Check with your education program instructor to see if your nurse aide education site has been approved for in-facility testing. If your nurse aide education site is an approved in-facility examination site, your nurse aide education program instructor will tell you the exam date that has been scheduled for you when you complete nurse aide education.

Completing your Initial Login

Your initial registration information will be entered in D&SDT-Headmaster’s TestMaster Universe (TMU©) software.

IMPORTANT: Before you can test, you must sign in to TMU© (<https://or.tmuniverse.com>) using your secure Email or Username and Password and verify that your demographic information is correct.

- It is highly recommended that when you receive your confirmation email from TMU© (check your junk/spam mail) that your record has been created, that you sign in to your record, update your password and verify your demographic information. If your demographic information is not correct, please notify your nurse aide education program.
- **You must notify OSBN any time you have a name or address change.**

OSBN will receive your results for state record the day your test is scored. D&SDT-Headmaster and OSBN cannot release results over the phone. Exam results are normally available online after 7:00PM Mountain Standard time/6:00PM Pacific Standard time (excluding Saturdays, Sundays and Holidays) one business day after the exam date.

When you pass your exam, you may be certified and listed on the Oregon Nurse aide Registry **ONLY AFTER** you have met all OSBN requirements. **One** of those requirements includes passing **both** the knowledge and skill test components of the Oregon nurse aide examination.

Please note: D&SDT-HEADMASTER does not send postal mail letters or email test results to candidates.

Test Attempts

You must apply for the state competency exam **within one year of your date of nurse aide education program completion.**

An attempt means checking in for the competency evaluation and signing in to the TMU© knowledge test or entering the skills test lab and hearing the skills that are to be performed. If a candidate decides to not complete the test after signing in to the knowledge test or entering the skills test lab and hearing the tasks to be performed, the attempt will be scored as a failure.

Retaking the Nurse Aide Test

In the event that your test results inform you that you failed the knowledge and/or skill portion of the examination and when you want to apply for a retest, you will need to repay the appropriate non-refundable fees to OSBN through the OSBN nurse portal at: [OSBN Nurse Portal \(boardsofnursing.org\)](https://boardsofnursing.org). Once your payment is processed by OSBN and they authorize (release) you to test, you will receive an email and then you can schedule a new exam date. **Follow the instructions for 'Scheduling/Rescheduling a Test Event'.**

Retaking the Knowledge Exam Virtually

You will have the option to take the knowledge exam (retakes only) virtually.

In the event that your test results inform you that you failed the knowledge portion of the examination and when you want to apply for a knowledge retest, you will need to repay the appropriate non-refundable fees to OSBN through the OSBN nurse portal at: [OSBN Nurse Portal \(boardsofnursing.org\)](https://boardsofnursing.org). Once your payment is processed by OSBN and they authorize (release) you to test, you will receive an email and then you can schedule a new knowledge retake exam date. To schedule your knowledge exam retake virtually, **follow the instructions under 'Virtual Knowledge Exam (retakes only) Option'** under the Knowledge/Audio Exam section.

Test Review Requests

You may request a review of your test results or dispute any other condition of your testing. To request a review, you must submit a detailed explanation of why you feel your dispute is valid **within three (3) business days** from official scoring of your test (excluding Saturdays, Sundays and Holidays). Requests may be sent via email oregon@hdmaster.com, fax (406)442-3357 or mail (post marked within 3 business days from official scoring of your test) P.O. Box 6609, Helena, MT 59604. Late requests will not be considered.

PLEASE READ BEFORE EMAILING YOUR TEST REVIEW REQUEST: Please call D&SDT-Headmaster at (800)393-8664 during regular business hours, 6:00AM to 6:00PM MST/5:00AM to 5:00PM PST, Monday through Friday, excluding Holidays, and discuss the test outcome you are questioning. Many times, once you have further details about the scoring of your test, you will understand the scoring process and learn how you can better prepare yourself for subsequent exam attempts. If, after discussion with D&SDT-Headmaster staff, you still have a concern, you may submit a Test Review Request.

One qualification for certification as a nurse aide in Oregon is demonstration by examination of minimum nurse aide knowledge and skills. The outcome of your review will determine who pays for your re-test. If the results of the review are in your favor, D&SDT-Headmaster will pay your re-test fee. D&SDT-Headmaster will review your detailed recollection, your knowledge test markings and any skill task measurements you recorded at the time of your test, in addition to reviewing markings, notations and measurements recorded by the RN Test Observer at the time of your test. D&SDT-Headmaster will re-check the scoring of your test and may contact you and/or the RN Test Observer for any additional recollection of your test(s). D&SDT-Headmaster cannot discuss test results or test reviews with the candidate's nurse aide education program/instructor. After a candidate reaches the age of 18, D&SDT-Headmaster will only discuss test results or test disputes with the candidate. D&SDT-Headmaster will not review test results or disputes with family members or anyone else on behalf of the candidate once the candidate is 18 years of age.

D&SDT-Headmaster will complete your review request within 10 business days of the receipt of your timely review request and will email the review results to your email address and to the Oregon State Board of Nursing.

The Manual Skill Test

- The purpose of the Skill Test is to evaluate your performance when demonstrating Oregon approved nurse aide skill tasks. You will find a complete list of skill tasks in this handbook.
- You will be asked to re-present your photo-bearing ID that you showed the RN Test Observer at sign-in.
- Be sure you understand all instructions you read while in the waiting area before you begin your skill task demonstrations. You may not ask questions once the Skill Test begins and the timer starts. Once the Skill Test begins, the RN Test Observer may not answer questions.
- The RN Test Observer will show you where supplies are located and demonstrate the use of the equipment you will need for your three (3) or four (4) assigned skill tasks before starting your skill test.
- Each of your randomly selected three (3) or four (4) tasks will have scenarios associated with them. The scenarios will be read to you by the RN Test Observer immediately before you are asked to do each task.
- **EFFECTIVE 1-1-2023:** You will be allowed a maximum of **thirty-five (35) minutes** to complete your three (3) or four (4) tasks. After 20 minutes have elapsed, you will be alerted that 15 minutes remain.
- Listen carefully to all instructions given by the RN Test Observer. You may request to have any of the scenarios repeated **at any time** during your Skill Test up until you run out of time or tell the RN Test Observer that you are finished with your skill task demonstrations.
- You must correctly perform all of the key steps and 80% of all non-key steps on each task assigned in order to pass the Skill Test. Key steps have been recommended by OSBN's Test Advisory Panel and approved by the Oregon State Board of Nursing.

Oregon Nurse Aide Candidate Handbook

- If you believe you made a mistake while performing a task, tell the RN Test Observer you would like to make a correction. You will need to correctly demonstrate the step or steps on the task you believe you performed incorrectly in order to receive credit for the correction.
- You may repeat or correct **any step** or **steps** on any task you believe you have performed incorrectly at **any time** during your allotted **thirty-five (35) minutes** or until you tell the RN Test Observer you are finished with the Skill Test.
- The skill task steps are generally not order dependent, unless the words *BEFORE* or *AFTER* are used in a step.
- When you finish each task, verbally tell the RN Test Observer you are finished and move to the designated “relaxation area.” When the RN Test Observer and actor have set up and are ready for your next skill task demonstration, the RN Test Observer will read the scenario for your next task.
- **All steps must actually be demonstrated. Steps and correction to steps that are only verbalized WILL NOT COUNT.**

Skill Test Tasks

Your nurse aide education program has prepared you for all of the skill tasks that you may be asked to perform. You will be assigned one of the following mandatory tasks with embedded hand washing using soap and water as your first task:

- Bedpan and Output with Hand Washing
- Catheter Care of a Male with Hand Washing (DEMONSTRATED ON MANIKIN)
- Donning an Isolation Gown and Gloves then Emptying a Urinary Drainage Bag with Hand Washing
- Perineal Care of a Female with Hand Washing (DEMONSTRATED ON MANIKIN)

Note: *Hand washing with soap and water is embedded in each of the mandatory tasks and must be demonstrated at the end of each mandatory task.*

Oregon Nurse Aide Candidate Handbook

You will also receive an additional two (2) or three (3) randomly selected tasks from the Skill Task listing below. These selected tasks will make up your personalized and unique skill test. Each skill test randomly assigned by the TMU© skill test assignment algorithm will be comparable in overall difficulty. That is why some skill tests will have a differing number of tasks.

Skill Tasks Listing

Every step must actually be performed and demonstrated during your skill test demonstration in order to receive credit.

The steps that are listed for each task are the steps required for a nurse aide candidate to successfully demonstrate minimum proficiency of the skill task for the RN Test Observer. The steps will be performed on a live resident actor for all but three of the tasks; the catheter care and perineal care tasks will be done on a manikin. You will be scored only on the steps listed.

If you fail the Skill Test, one of the tasks on your retest will be a task you previously failed. There will always be only one of the five mandatory tasks to start each Skill Test. The other tasks included on your Skill Test are randomly chosen so that every Skill Test is comparable in difficulty and average length of time to complete. The RN Test Observer will observe your demonstrations of your skill tasks and record what they see you do. D&SDT-Headmaster scoring teams will officially score and double check your test.

Note: The skill task steps included in this handbook are offered as guidelines to help prepare candidates for the Oregon nurse aide skill test and the steps included are not intended to be used to provide complete care that would be all inclusive of best care practiced in an actual work setting.
